## **PRESS RELEASE**

### **THE SIGMON SYSTEM NFPA 1994 CLASS 3 CERTIFIED SUIT IS NOW CERTIFIED WITH BACOU-DALLOZ'S SURVIVAIR® CBRN NIOSH APPROVED OPTI-FIT™ APR**

**Chesapeake, VA, --** The Sigmon Group (TSG) is pleased to announce successful testing with the Bacou-Dalloz's Survivair CBRN NIOSH approved Opti-Fit APR mask with the Sigmon System NFPA Certified 1994 Class 3 Suit. The complete Ensemble was certified by Underwriters Laboratory in Raleigh, North Carolina.

This Ensemble is designed for fire and emergency services personnel responding to chemical/biological terrorism incidents, or for fire and emergency services personnel exposed to victims or materials during assessment, extrication, rescue, triage, and treatment operations at or involving chemical/biological terrorism incidents. The ensemble is packaged in a convenient, easy to use Kit Bag. The Kit contains the NFPA certified one-piece Class 3 Suit, the CBRN NIOSH approved Opti-Fit APR mask, CBRN NIOSH approved canisters, and NFPA certified Boots. Additional product information can be found at <http://www.theSigmonsystem.com>.

In addition to CBR protective clothing, The Sigmon Group, a veteran-owned small business, headquartered in Chesapeake VA, has provided diversified quality engineering, technical, and management services to agencies of the U.S. Government, Government prime contractors, and commercial industry since 1997.

The Survivair brand is recognized world wide for quality and innovative respiratory protection products of many types. All of their products meet or exceed strict industry standards, such as NIOSH or NFPA.
